BIG FREIGHT WRECK NORTH OF TROUPE

NINE LOADED FREIGHT CARS ARE IN THE DITCH—TRAINS ARE DELAYED.

This morning nine loaded freight cars were ditched on the main line, about three miles north of Troupe. It is reported no one was hurt, though the loss of property is considerable, and traffic is delayed.

The wrecker, with a big crew and a string of empties, went north at 11:20. It will likely be ten or twelve hours before trains can come from the north.

Trains were made up here for the south and west.

Houston, Texas, April 17, 1906.
Mr. A. N. Dexter, Adjutant,
U. C. V. John Reagan Camp No. 44,
Palestine, Texas.

Dear Sir:—Replying to your letter of the 16th, beg to say that I am prepared to furnish a tourist car to move from Houston to New Orleans and return for your camp.

If this car is chartered the rate will be \$25.00 per day, the charge to commence on the day the car leaves until its return to Houston, it being understood that the car will not be chartered for less than three days.

I would state for your information that on April 23rd we will run our regular train out of here in the evening in three sections, the first section being the regular train to leave at 7:20 p. m., the second section to leave at about 8 p. m., this train will consist of the U. C. V. camps from points on the H. & T. C., and the third

FOR REPRESENTATIVE.

John J. Word of This City Will Make the Race for the Legislature.

Palestine, Texas, April 20, '06.
Editors Daily Herald:

In announcing myself as a candidate for the Democratic nomination as Representative from Anderson county to the State Legislature, I deem it proper to briefly state in part the measures and policies I shall support and advocate, to-wit:

First. Fewer new laws and more strict enforcement of present laws.

Second. Strict and rigid economy in the administration of state, county and municipal affairs.

Third. Amendment to certain laws now in force, so as to make them more just and equitable, to-wit:

First. The laws regulating mechanics, laborers and material men's liens.

Second. The laws regulating the management and control by husband of the wife's separate property.

Third. The laws regulating the assessment of property for taxation so as to make tax burdens uniform and equal, as required by the constitution.

Fourth. The laws regulating the surveying of lands, and the acknowledgment of deeds, etc.

Fifth. Revision of the pension laws so as to render them more liberal and less humiliating to the old Veterans.

John J. Word.

For Representative.

Capt. John J. Word announces in this issue of the Herald as a candidate for Representative. Capt. Word is too well known to this people to need any introduction or commendation at the hands of the paper. He is a pioneer citizen of the county, and has a long record both as an official and as a private citizen on which the people can judge his fitness for the

RELIEF FUND.

Money Volunteered for Relief of San Francisco in This City and County.

Hon. B. F. Rogers of Elmtown wires in his subscription to the Herald for a relief fund for San Francisco, and urges the Herald to push such a fund, that Palestine and Anderson county may not lag behind in a duty to humanity.

The Herald has its check ready for such a fund.

Any one desiring to give to this fund can send same to the Herald or to any bank in the city, and the matter will be turned into the right channel. It should be done at once.

These people are in dire distress and will need all the help possible from all sections of the world.

A Good Lacquer.

It is often the case that one finds it convenient to have at hand a first class lacquer with which to coat instruments, ornaments or other articles, to add either to their durability or finish. The following recipe will be found reliable and not specially expensive: One pint of best rectified alcohol, two drams each of saffron and Spanish annatto, an ounce of ground turmeric. Put these ingredients together and place them where there is a moderate heat. Leave them for several days, shaking them occasionally. When nearly dissolved add three ounces of the best seed lac in rough powder. Let this stand until the lac is all dissolved, shaking it frequently. If the color is to be a bright yellow, use less annatto; if a deep orange, use more. Put the mixture on while warm. Apply with a brush as one would use paint. The number of coats depends entirely upon the article and the purpose for which it is used. For blue lacquer add prussian or aniline blue to white shellac varnish made very thin. In making lacquer take great care not to use too much seed lac, as the mixture is likely to dry unevenly or in streaks.

A Veil With a History.

The bridal veil is evidently of eastern origin, being a relic of the bridal canopy held over the heads of the bride and bridegroom. Among the Anglo-Saxons a similar custom existed, but if the bride was a widow it was dispensed with. According to Sarum usage, a fine linen cloth was laid upon the heads of the bride and bridegroom and was not removed until the benediction had been said.

The old British custom was to use nature's veil unadorned—that is, the long hair of the bride, which was so worn by all brides, royal, noble and simple. Only then did every one behold the tresses of maidenhood in their entirety and for the first time, as after marriage they were neatly dressed on the head. Among some the tresses were cut and carefully stowed away on a woman becoming a wife. It was customary in Russia for village brides to shear their locks on returning from church.

The Precept of Idealists.

Listen to the old men seated upon the benches in the towns or during their walks in the parks. Listen to those who are in the midst of life, in the thick of bitter conflicts and heart sickening struggles. Listen to the women who have been married these several years. What discouraging remarks! Vanity of vanities! All these people have filed their reports, and worn out, without the courage to put the ideal into life, it ends in inevitable and horrible bankruptcy. But in all this it is not life which is at fault, it is man. You must supply what is missing. Let us, then, to the professors of the ideal. Their precept is very simple. It resolves itself into this: "Be prepared for difficulties, but be faithful in the little things, and you will attain the great ones." It is by the very little steps that one rises slowly to the summits.—Charles Wagner in Harper's Bazar

CITY COUNCIL

Held a Special Meeting Last Night on Bond Matter.

The city council met last night in special session to act on the school bond issue as authorized in the election last March. Mayor A. L. Bowers presided and all aldermen were present except Hunter. Aldermen Grant and Caldwell, as a committee, submitted the bid of Spitzer & Co. of Toledo, Ohio, as the highest bid, having fulfilled all requirements, accompanied by certified check. Resolution was adopted accepting the bid, to-wit: \$10,500 series A school bonds, bearing 4 1/2 per cent. interest per annum, payable semi-annually; \$9,500 series B bonds for additions to school buildings, 4 1/2 per cent. interest. Bonds to be for forty years with option of redemption in twenty years if the city of Palestine should desire to take them up in that time. Spitzer & Co. to pay a premium of \$425.00, also the cost of printing the bonds.

On motion of Aldermen Grant an ordinance was passed to final reading and adoption, rules having been suspended, containing the regular form of bond, making the contract binding also complying with requirements of the state attorney general's office and that of the comptroller.
